The NEW FHD Digital Inspector:

Replace your “Maggy” lamp on your production line with a real digital high zoom inspection tool

Why take your PCB off the conveyor? With our new flexible Tagarno FHD ZAP there is no need to.
Less errors Save time Save money

The main features of TAGARNO FHD ZAP:

- MAGNUS FHD ZAP is easy to set-up and position on your production line.
- What you see on screen is the same as under the camera, no distortion, no delay.
- MAGNUS FHD ZAP is able to magnify up to 100 times
- Show live images at 60 fps (frames per second), which gives you a unique image quality and an outstanding chance to see small details completely clearly.
- We offer the new ZAP with our unique flex-arm solution and foot pedal
- You also can create your own solutions and customize it to your needs.
- Full High Definition (FHD)
