Today is a very special event at Suba Engineering. We finished our own product: An "Australian" digital auto-focusing Microscope with a zoom of up to 200x. We use our 3-D printer and CAD software to make the parts and source some hardware from overseas technology suppliers.

The **SubaScope** 200 with FHD automatic focusing, Bluetooth mouse, built in software and Micro-SD card to take pictures and or videos.

Our technology will be your advantage

The **SubaScope** 200 **36-686-451** comes with everything plus Monitor and a 0.5 lens at a Special price of:

AUD 1'800.00 All prices are excluding GST and ex-works Suba

Or buy the **SubaScope** 200 **36-686-451** with everything but without monitor, however with the 0.5 lens at a Special price of:

AUD 1'500.00 All prices are excluding GST and ex-works Suba
